Please Read

For this speech, you need a minimum of three sources cited in MLA format. If you take exact words or phrases from a source and you do not attribute the material it is plagiarism.

Plagiarism -- the unauthorized use or close imitation of the language and thoughts of another author and the representation of them as one's own original work, as by not crediting the author. (dictionary.com)

Please remember that Wikipedia is a starting point to generate ideas, **NOT A SOURCE**. If I find that portions of your work are lifted/copied from Wikipedia or another source, you will receive a zero for your draft and will not be able to make it up.
